

‘Can you see where Blackbird has gone into the tree, and fly your kite close by?’ Cedric asked. ‘I will do my best, but what are you going to do?’ Wilfred asked ‘I am going to climb up the kite string and rescue Wilhelmina!’, Cedric said as he began climbing the wobbly wind blown string. 7

Its was a difficult climb even for Cedric with all his legs. The wind blew him back and forth on the string as the kite danced in the sky, he had to hang on very tightly! Then the kite got stuck in the branches and it stopped dancing about. Cedric could now run up the string fast to the top. 8
